APR-06-2005 15:19 JAC PRODUCTS 248 874 1824 P.03/10

Claims:

- 175 1. [original] A golf club head, said club head further including a hosel extending generally upwardly from the heel end thereof and defining a generally upwardly open hosel bore, said hosel having at least one reinforcement bridge of material extending out from the hosel to the main body of the club, creating a roughly cylindrical space underneath the reinforcement bridge of either no material or a less structurally sound material than that of the reinforcement bridge.
 - [original] The golf club head of claim 1 wherein said club head comprises a
 wood-type club head in which the hosel reinforcement bridge extends from
 the hosel to the upper surface of the club head.
- 185 3. [withdrawn] The golf club head of claim 1 wherein said club head comprises an iron-type club head in which the hosel reinforcement bridge extends from the hosel to the heel of the club head.
- 4. [withdrawn] The golf club head of claim 1 wherein said club head comprises a putter-type club head in which the hosel reinforcement bridge extends from
 190 the hosel to the heel of the club head.

further including a hosel extending generally upwardly from the heel end thereof and defining a generally upwardly open hosel bore, said hosel having at least one reinforcement bridge of material extending out from the hosel to the main body of the club, creating a roughly cylindrical space underneath the reinforcement bridge of either no material or a less structurally sound material than that of the reinforcement bridge.
